## WIRING DIAGRAM

## MOUNTING + FITTING INSTRUCTIONS

Carefully unpack and inspect the alarm before installing to ensure there is no damage.

Plan all cable routing before attempting installation and ensure voltage compatibility.

Mount the alarm horizontally facing outward for maximum efficiency.

Fit in a position that will not be effected by dirt, flying objects, impacts and direct water streams.

Ensure there are no obstructions blocking the sound waves of the alarm.

If the alarm slides or moves easily, a proper installation has NOT been attained.

**! CAUTION ! - Disconnect the battery before wiring up the alarm to prevent accidental shorting and/or electrical shock.**

**! CAUTION ! - When drilling into the vehicle surface, make sure the area is free from anything that could be damaged, including any electrical wires, fuel lines, upholstery, etc.**

**! WARNING ! - Do NOT use high-pressure washers or automatic car washers. This alarm is rated IP67.**

**! WARNING ! - Do NOT fit near high temperature zones around the engine or exhaust.**
