

Clean hands - anywhere!

The TW TEALwash

Rugged, hygienic, easy to use and easy to clean – the TEALwash wall mounted portable sinks give you hot water hand washing wherever you need it.

The TEALwash is available in a number of different configurations; 12 and 24 volt versions for motor vehicles and two wall mounted options - the 230 volt for mains operation and 110V for use with a generator.

The TEALwash TW110 is available as a special order.

Rugged, wall or vehicle mounted hand wash unit

Features of the TEALwash

- 20 washes per filling
- Uses mains electricity, generator or vehicle battery to heat the water (depending on model)
- Basin can be closed when not in use
- Finger tip operated Flippi-tap
- Wash under running water
- Lightweight and simple to use
- Dirty water runs out through blue outlet pipe
- No plumbing connections needed.

Real hand hygiene is achieved under hot running water at the ideal constant temperature of 40°C – 43°C. There are no messy twist taps to retain dirt and grease – just a simple Flippi-tap.

Simply place a suitable container (not supplied) underneath the blue outlet pipe on the TEALwash to collect the waste water during hand washing.

The TEALwash provides more than twenty twelve second washes, from each filling of the 5 litre water tank. And it's easy to fill and empty with a large opening lid for a quick top-up with clean water.

Close the bowl after washing and the waste water drains away.

Options

- TEALwash for motor vehicles - provided in 12 and 24 volt versions.
- TEALwash for 230V mains supply
